fold panel

5 Fold - A Smart Panel System

Fecosity[®]

FEATURES

Protection –

The FeCOSY panels meet the varying protection requirements up to IP 55.

Strength –

The rigid 5 fold sections provides a very stable framework, moreover the recessed side sheets provide extra strength to the cubicle. The folding of the sheets make the frame structure lighter and stronger than traditional construction system of making structure frame with MS angles and Flats.

Flexibility –

In Size, mountings, accessibility, finish. The cubicles are made to order, and we do not push standard products.

Integration –

We offer panels integrated with instruments, elements and wiring, providing complete one stop solution for panel requirement.

ADVANTAGES

- Due to welding of the frame members, hardware is reduced. Being ferrous structure, the complete panel can be powder coated.
- Suitably placed slots in the bended frame members ensure the flexibility for the internal arrangement of the instruments. The channel for instrument mounting is done with specially designed cage Nuts.
- Texture granules powder coating provides good paint thickness, improved Gloss and overall aesthetics.

Standard Dimensions

S.No.	Product Part No.	Size in mm		
		Height	Width	Depth
1.	010S01	2000	600	600
2.	010S02	2000	800	600
3.	010S03	2000	800	800
4.	010S04	2000	1000	800
5.	010S05	2000	1200	800
6.	010S06	2000	1200	1000
