To Whom So Ever It May Concern

M/S Pyrotech Electronics Pvt. Ltd. Udaipur was entrusted with the job of design, manufacture, supply and erection of the complete electrical and instrumentation package for the dust extraction system for Zinc Refining Columns at HZL Chanderia. Scope of work included supply, erection and commissioning of MCC panels, distribution panels, complete plant wiring, LT Panels, PDBs, LCPs, Field JBs, Cables, Cable Glands and Plant Lighting. Scope also included erection of 2 x 250 kW VFD drives and 2 x 30 KW VFD drives along with instrumentation and controls.

M/s Pyrotech has completed very successfully the entire job and the assigned task in a very professional manner and handed over the facilities in time for system commissioning. Their team was very committed, reliable and understood the responsibilities of working under tough site conditions, safety rules and ensured there was no accident during their entire operation. The Total Value of the Job was about 35 Lacs.

The manufacturing facilities of M/s. Pyrotech are excellent and equipments supplied by them were of very high quality.

We found Pyrotech technically competent and professional company and a very reliable partner to Intelligent Air.
