Scan For More Information

SAMIRA

Seeing Air in Motion -
Instrumentation For Remote-
Sensing Applications
Wind/Met Profiling for Ballistic Calculation.
Long Range of 5km to 15km.

AUM

Air Unique-quality Monitoring
Monitoring Chemical Warfare Agents

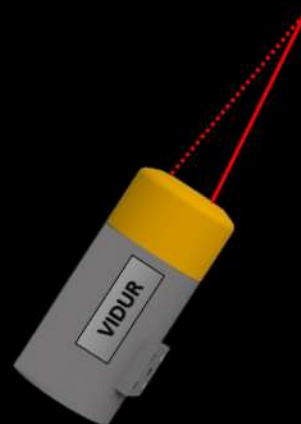

AJNA

Aerosol Judicating Navigable
Apparatus
Monitoring Biological Warfare Agents

VEDA

Vibration Effectiveness
Deflection Analysis
Seismic Non-Acoustic Monitoring System

VIDUR

Vibration Intelligence Data
Unravelling Remotely
Structural Health Monitoring

SAVADHAN

Scan, Analyze, Validate, Discriminate,
Highlight, Assess & Neutralize
Non-Acoustic Innovative Coastal Surveillance
for Detecting Ships & Submarines.

DRONACHRYA

Image processing & Video
Analytics using Drone or
Satellite Imaging
Feature Extraction: From a snapshot of
space-borne sensors/drones for
monitoring hydrodynamic disturbances in
stratified fluids.
